The Harvester™ Micro Utility Power Platform: Accessories AH002 to AH010

In addition to our standard accessories, **SolarOne** can provide custom solutions. Price is based on volume and associated development cost. In stock products usually ship within 2 to 5 business days of order. Expediting charges may apply for rush orders. Contact SolarOne for availability and schedules.

AH002 80 Watt Solar Panel Add-On*

Add up to two 80 watt solar panels to the Harvester to boost the charging current. Works with Mobile or Ground Mount platforms. Includes extender bar and hardware to attach it to the main Harvester.

AH003 Extra Battery Pack

Add extra battery capacity to the Harvester using this Add-on Battery Pack. Includes a 105amp-hour AGM battery, plastic battery box, and cable to hook it to the Harvester Power Center.

AH004 Spare 105amp-hr Battery*

Spare or replacement battery for the Harvester. 105amp-hr, sealed, 12volt, AGM battery.

AH005 AC 10amp wall charger*

Charge your Power Center from the wall. Provides 10amps of charging current with automatic shutoff. Standard charger is for 110V/60Hz but 220V/50Hz also available.

AH006 Vehicle Charging Cord*

Charge your Power Center from your Vehicle's Lighter Socket. 10ft of cable. Automatic 10amp current limit. LED lights indicate Battery Status.

AH007 10ft PV Extension Cord

This is a 10ft UV resistant, 2 conductor, black, 12awg extension cord for SolarOne's pv panels. Has an RV-type connector on each end.

AH008 Harvester Mobile Base

Roll your power where you need it with the mobile Harvester base. Compatible with Ground Mount PV panels.

AH009 Harvester Ground Mount Base

Use the Ground Mount base to setup your Mobile Harvester as a Fixed PV array. Harvester PV panels slide into the mounting receptacles. Ground anchor included. Padlock Hasp for extra security.

AH010 Table Top (if available)

Add a table top to the back of your Harvester for a mobile Work Station. Good for laptops, and other electronics you will be powering from the Harvester.

*Item may not be exactly as pictured, but will meet all of the same specifications.
