<p>Unique Styling</p> <p>Directional Lighting</p> <p>10° Tilt For Optimum Light Spread</p> <p>While Remaining Dark Sky Friendly</p>	<p>Outstanding Uniformity and Light Spread</p> <p>Familiar Styling</p> <p>Most affordable lighting option</p>	<p>Ceiling or Wall Mount</p> <p>Vandal Resistant Poly- Carbonate Cover</p> <p>Drive One to Three Single Lamp Fixtures on a Single Power System</p>	<p>Wide or Narrow Light beam options</p> <p>Adjustable angle for accent and spot lighting</p> <p>Weatherproof fixtures for durability</p>	<p>Reliability and Flexibility of SolarOne's SO-Bright™ Technology</p> <p>Highest Quality Hadco Decorative Fixtures</p>

SolarOne solar powered lighting systems offer complete autonomy, providing lighting with no connection to the grid. Systems are supplied with battery storage to ride out no/low sun days based on your geographic location and climate. Standard systems are typically quoted to provide all night lighting, using two light levels, but other profiles, including all night lighting at peak can be provided for most parts of the world.
